## Subject Index to Volume 8

- Air pollutants  
  effect of, on squirrels, 231
- Air pollution  
  mosses as possible indicators of, 335
- Air sampler for pesticides, 621
- Aldicarb  
  effect of, on  $N_2$ -fixation in soil, 630
- Aldrin  
  in macrozoobenthos, 161
- Algae  
  accumulation of lindane by, 721
- Animal feeds  
  contaminant levels in, used for toxicity studies, 693
- Atrazine  
  in farm pond ecosystems, 345  
  sorption and desorption of, by bacteria, 713
- Azinphosmethyl  
  exposure of field workers to, 434
- Bacteria  
  degradation of parathion by, 647  
  sorption and desorption of atrazine by, 713
- Benzene hexachloride in human milk, 47, 59  
  residues in Snake River (Idaho) after collapse of Teton Dam 1976, 150
- BHC, see Benzene hexachloride
- Blood, human  
  DDE in, 64  
  PCBs in, 64
- Cadmium  
  in brook trout, 77  
  containing metallothioneins, 471  
  effects of, on crayfish, 449  
  in experimental animals, 255  
  and Zn ratios in rat kidney, 85
- Carbofuran  
  in farm pond ecosystems, 345
- Carbon monoxide  
  effect of, on squirrels, 231
- Carrots  
  chloroalkylene-9- $^{14}C$  in, 183
- cis-chlordane  
  effect of, on goldfish, 409  
  photolysis of, and toxicity to animals, 509
- Chlorinated quaiacol  
  fate of, in rats, 589
- Chlorinated pesticides in human milk, 43, 59  
  in macrozoobenthos, 161
- Chloroalkylene-9- $^{14}C$  in carrots, sugar beets and soil, 183
- Chlorpyrifos  
  effect of, on  $N_2$ -fixation in soil, 630
- Cholinesterase surveillance of pesticide workers, 703
- Chromosomes  
  studies with organophosphate workers, 309
- Clays  
  enzyme in, that degrades crotoxyphos, 661  
  sorption-desorption characteristics of methyl parathion in, 637
- Contaminant levels in animal feeds used for toxicity studies, 693
- Copper  
  in animal kidney metallothioneins, 255  
  containing metallothioneins, 471  
  effect of, on Bluntnose minnow, 545  
  effect of, an oyster, 553  
  effects of, on Sabellid polychaete, 97  
  in rat kidney metallothionein, 88
- Cotton  
  exposure of workers to organophosphorus, insecticides, 433  
  residues of DEF, paraquat, and toxaphene in, 125
- Crayfish  
  effects of cadmium on, 449
- Crotoxyphos  
  soil enzyme that degrades, 661
- Cyanide poisoning in fish, 533
- Daphnia  
  toxicity of chlordane and heptachlor to, 517  
  toxicity of surfactants to, 599
- 2,4-D  
  toxicity of, to Dungeness crab, 383
- DDD in human milk, 47  
  in Norwegian fruitgrowing district, 201
- DDE in human milk, 47  
  in cows, 203  
  in human blood, 64  
  in macrozoobenthos, 161  
  in marine invertebrates, 207  
  in Norwegian fruitgrowing district, 201  
  in sea gulls, 204

- DDT in human milk, 47  
   in cows, 203  
   in fish, 205  
   in macrozoobenthos, 161  
   in marine invertebrates, 207  
   in Norwegian fruitgrowing district, 201  
   residues in Snake River (Idaho) after collapse of Teton Dam 1976, 139  
   in sea gulls, 204
- DEF, see *s,s,s*-tributylphosphorotrithioate
- Delta-aminolevulinic acid  
   effects of lead, on activity of, in rainbow trout, 419
- Detergents  
   effect of, on fish, 241
- Dieldrin in human milk, 47  
   residues in Snake River (Idaho) after collapse of Teton Dam 1976, 139  
   in a simulated terrestrial ecosystem, 107
- Dimecron, see Phosphamidon
- Dinoseb  
   effect of, on  $N_2$ -fixation in soil, 630
- Dislodgeable insecticide residues  
   on peaches, 177  
   pesticide and particulate recovery, 369  
   on sweetcorn, 177
- DNBP, see Dinoseb
- Dungeness crab  
   toxicity of 2,4-D, DEF, propanil and trifluralin to, 383
- Dursban®, see Chlorpyrifos
- Fish  
   BHC in, 150  
   cadmium, uptake of, in, 77  
   carbaryl in, 151  
   chronic cyanide poisoning in, 533  
   chronic effect of copper on, 545  
   2,4-D in, 151  
   dieldrin in, 144  
   DDT in, 139, 205  
   effect of detergents on, 241  
   effect of phosphamidon on, 397  
   effect of selenium dioxide on mercuric chloride toxicity, 279  
   effects of chlordane on, 409  
   effects of lead on, 419  
   HCB in, 149  
   heptachlor epoxide in, 149  
   lindane in, 150  
   metabolism of heptachlor in, 519  
   naphthalene in, 673  
   PCBs in, 70, 139, 205  
   toxicity of glyphosate, 269  
   toxicity of heptachlor and *cis*-chlordane, 512  
   toxicity of surfactant, 276
- Gin waste  
   residues of DEF, paraquat, and toxaphene in, 125
- Glyphosate  
   toxicity of, to fish and aquatic invertebrates, 269
- HCB, see Hexachlorobenzene
- Heptachlor  
   metabolism of, in goldfish, 519  
   photolysis of, and toxicity to animals, 509
- Heptachlor epoxide in human milk, 47  
   residues in Snake River (Idaho) after collapse of Teton Dam 1976, 149
- Hexachlorobenzene  
   residues in Snake River (Idaho) after collapse of Teton Dam 1976, 149
- Hexachlorophene  
   in tomatoes, 213
- Lead  
   effects of, on rainbow trout, 419
- Lindane  
   accumulation of, by algae, 721  
   in macrozoobenthos, 161
- Marine invertebrates  
   DDE in, 207  
   DDT in, 207  
   PCBs in, 207  
   Toxicity of glyphosate, 269
- Mercapto-N-oxide biocides  
   photodegradation of, 355
- Mercury  
   changes in levels of, in porpoises, 733  
   effects of, on brain protein synthesis, 465  
   effect of selenium on mercury toxicity to goldfish, 279  
   in macrozoobenthos, 161
- Metallothioneins  
   cadmium in animal kidney, 255  
   copper in, 88  
   copper in animal kidney, 255  
   toxicity of with different Cd/Zn ratios in rat kidney, 85  
   zinc in animal kidney, 255
- Mice  
   metabolism of oxamyl in, 499
- Milk, human, chlorinated pesticides in, 43  
   BHC in, 47  
   DDD in, 47  
   DDE in, 47, 59  
   DDT in, 47, 59  
   dieldrin in, 47, 59  
   heptachlor epoxide in, 47  
   PCBs in, 59
- Mink  
   toxicity of polybrominated biphenyls in, 487
- Mirex, hepatotoxic effects in rat, 25
- Monocrotophos  
   exposure of field workers to, 434

- Mosses  
possible indicators of air pollution, 335
- Mussel  
retention of PCBs in, 299
- Naphthalene  
in flounder and rock sole, 673
- Nitrogen dioxide  
effect of, on squirrels, 231
- Oil  
Bunker C, effects on quail, 457  
sulfur-containing, in sediments, 563
- Oxamyl  
metabolism of, in mice and two-spotted mites, 499
- Oyster  
effects of salinity, temperature and copper on, 553
- Paraoxon  
residues in peaches, 177  
residues in sweet corn, 177
- Paraquat  
residues of, in cotton and gin waste, 125
- Parathion  
degradation of, by bacteria, 647  
exposure of field workers to, 433  
residues on peaches, 177  
residues on sweet corn, 177  
sorption-desorption characteristics of, in clays, 637
- PCBs in human milk, 74, 78, 59  
in aquatic plants, 613  
in diet of Japanese women, 67  
exposure of rats to, 191  
in fish, 67, 205  
in human blood, 64  
in macrozoobenthos, 161  
in marine invertebrates, 207  
in Norwegian fruit growers, 203  
in pigfat, 617  
residues in Snake River (Idaho) after collapse of Teton Dam 1976, 139  
retention of, in mussel, 299  
in sea gulls, 204  
in sediments, 563  
hepatotoxicity of a tetrachlorobiphenyl, 321
- Phosphamidon  
effect of, on fish, *Channa punctatus*, 397
- <sup>14</sup>C-photo-*cis* chlordane  
effect of, on goldfish, 409
- Photothidiazuron  
fate of, in rats, 573
- Pigs  
nutritional and toxicity studies on, fed aquatic plant rations, 613
- Plankton  
DDT in, 144  
dieldrin in, 144  
PCBs in, 144
- Polybrominated biphenyls  
toxic effects of, in mink, 487
- Porpoises  
changes in mercury levels in, 733
- Propanil  
toxicity of, to Dungeness crab, 383
- Quail  
reproductive responses of, to Bunker C oil fractions, 457
- Rat  
cadmium-exposed, 255  
copper metallothioneins in, 471  
fate of photothidiazuron in, 573  
fate of tri- and tetrachloroquaiacol in, 589  
hepatotoxicity of a tetra chlorobiphenyl, 321  
metabolism of toxaphene in, 1  
response of, exposed to PCBs, 191  
toxicity of heptachlor and *cis*-chlordane, 509
- Roundup®, see Glyphosate
- Sabellid polychaete  
effects of Cu on, 97
- Selenium  
effect of, toxicity of mercury in goldfish, 279
- Sesamex  
effect of, on toxaphene toxicity, 22
- Simazine  
effect of, on N<sub>2</sub>-fixation in soil, 630
- Sodium trichloroacetate  
effect of, on N<sub>2</sub>-fixation in soil, 630
- Soil  
chloroalkylene-9-<sup>14</sup>C in, 183  
DDT, DDD, and DDE in, 201  
effect of pesticides on N<sub>2</sub>-fixation in, 629  
enzyme from, that degrades crotoxyphos, 661  
parathion degradation in, 647  
sorption-desorption characteristics of methyl parathion in, 637
- Spermatogenesis  
inhibition of, in rainbow trout by cyanide poisoning, 533
- Squirrels  
exposed to air pollutants, 231
- Sugar beets  
chloroalkylene-9-<sup>14</sup>C in, 183
- Sulphur dioxide  
effect of, on squirrels, 231
- Surfactants  
toxicity of, to *Daphia Magna* and *Daphia pulex*, 599
- Syndets, see Detergents
- TCA, see Sodium trichloroacetate
- TCDD, see 2,3,7,8-tetrachlorodibenzo-*p*-dioxin
- Temik®, see Aldicarb
- Terrestrial ecosystem  
fate of <sup>14</sup>C dieldrin in, 107

- 1,2,4,5-tetrachlorobenzene
  - chromosome aberrations in workers producing, 309
- 2,3,7,8-tetrachlorodibenzo-*p*-dioxin in foliage, 441
- Tomatoes
  - hexachlorophene in, 213<sup>f</sup>
- Toxaphene
  - fecal and urinary metabolites in rat, 17
  - metabolism of, by aquatic sediment and a camphor-degrading *Pseudomonad*, 285
  - metabolism of, in rats, 1
  - residues of, in cotton and gin waste, 125
  - Sesamex, effect of, on toxicity of, 22
  - solvent-extractable metabolites of, 8
  - toxicant B of, 1
  - toxicant C of, 1
  - water-soluble metabolites of, 5
- S,S,S*-tributylphosphorotrithioate
  - residues of in cotton and gin waste, 125
  - toxicity of, in Dungeness crab, 383
- 2,4,5-Trichlorophenoxyacetic acid esters
  - tetrachlorodibenzo-*p*-dioxin in foliage after use of, 441
- Trifluralin
  - toxicity of, to Dungeness crab, 383
- Vacuum
  - and dislodgeable surface pesticide, residue techniques, 369
- Vydate®, see Oxamyl
- Water
  - atrazine in, 345
  - carbofuran in, 345
  - chlorinated pesticides and PCBs in, 143
  - use of mercaptopyridine-N-oxides in, 355
- Water fowl
  - carbaryl in, 152
  - 2,4-D in, 151
- Workers
  - air sampler for pesticides, for, 621
  - chromosome aberrations in, from tetrachlorobenzene, 309
  - cholinesterase surveillance of pesticide, 703
  - DDT and DDE in Norwegian, 203
  - exposed to organophosphorus insecticides, 175
  - exposed to organophosphorus insecticides in cotton field, 433
  - PCBs in Norwegian, 203
- Zinc
  - and Cd ratios in rat kidney, 85
  - containing metalllothioneins, 471
  - in experimental animals, 255
